A. INTRODUCTION

The Commission's regulation, 10 CFR Part 71, "Packaging of Radioactive Material for Transport and Transportation of Radioactive Material Under Certain Conditions," applies to licensees of the Commission who transport licensed material or who deliver licensed material to a carrier for transport. In their transport or delivery of packages, licensees may be required by a provision of §71.5, 10 CFR Part 71, to conform to certain standards and requirements of the Department of Transportation (DOT). This regulatory guide describes a method acceptable to the Regulatory staff for licensees of the Commission to comply with that provision in §71.5 with respect to determining an applicable packaging design, package content limitation, and label which must be applied to the package.

B. DISCUSSION

American National Standards Institute (ANSI) Subcommittee N14.10 has prepared a standard (ANSI N14.10.1) to aid in determining which of the packaging and labeling regulations of the Department of Transportation apply in a given case and what must be done to comply with those regulations. This document was approved by ANSI on September 14, 1973.

C. REGULATORY POSITION

Preliminary work is underway on amendments to DOT regulations. If adopted, they may render the ANSI standard incomplete or inapplicable.

Copies of published guides may be obtained by request indicating the divisions desired to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director of Regulatory Standards. Comments and suggestions for methods acceptable to the AEC Regulatory staff in implementing specific parts of improvements in these guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff.

The guides are issued in the following ten broad divisions:

1. Power Reactors
2. Research and Test Reactors
3. Fuels and Materials Facilities
4. Environmental and Site
5. Materials and Plant Protection
6. Products
7. Transportation
8. Occupational Health
9. Antitrust Review
10. General
