Dear Mr. Nicol:

Enclosed is the Department of Energy (DOE) Quality Assurance Program Approval (QAPA), Approval Number 0001, Revision 3, for Energy*Solutions*, responding to your email to the DOE Docket Manager dated April 11, 2016. This approval is based on DOE's endorsement of the Nuclear Regulatory Commission (NRC) Approval Number 0935, Revision 8, dated April 2, 2016, of Energy*Solutions' Quality Assurance Program* (QAP), ES-QA-PG-001, Revision 3, dated March 2, 2015, and DOE review of Revision 4, of the QAP dated March 23, 2016. DOE concurs that the minor organizational changes in Revision 4 do not impact the quality program or reduce Energy*Solutions'* commitments as described in 10 CFR 71.106(b).

This DOE QAPA satisfies DOE Order 460.1 C, *Packaging and Transportation Safety*, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of Approval Number 0001, Revision 3, is April 30, 2020. If you wish to renew, revise, or terminate the DOE QAPA, please request this action in writing. Any revisions to your QAP shall be submitted and approved by DOE Packaging Certification Program prior to implementation of the proposed changes.

This approval letter also serves as a reminder that DOE Order 460.1 C requires each DOE entity that offers for transportation or transports radioactive material for DOE in Type B or fissile material packaging certified by the Headquarters Certifying Official (HCO) or the NRC shall be registered in writing with the HCO. Refer to the following URL for registration instructions: https://rampac.energy.gov.

If you have any additional questions, please contact me or Dr. James Shuler of my staff, at (301) 903-5513.

Sincerely,

Frank Marcinowski
