SUBJECT: Issuance of Quality Assurance Program Approval 0012, Revision 4

Attached is Department of Energy (DOE) Quality Assurance Program (QAP) Approval, Approval Number 0012, Revision 4, for UT-Battelle, LLC (UT-Battelle), in response to the email request from Griffin Roblyer dated April 3, 2024, for renewal. This approval is based on independent review by the DOE Packaging Certification Program (PCP) staff of UT-Battelle's *Packaging Quality Assurance Program Description Applicable to Type B or Fissile Packaging (PQPD)*, dated March 26, 2024, and submitted April 4, 2024. Please provide DOE PCP with the final approved PQPD printed from the Standards Based Management System (SBMS) that shows the effective date of implementation, for our reference.

This DOE QAP Approval satisfies DOE Order 460.1D, *Hazardous Materials Packaging and Transportation Safety*, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of DOE Approval Number 0012, Revision 4, is April 30, 2029. If you wish to renew, revise, or terminate approval of QAP Approval 0012, please request this action in writing. Renewal request is due no later than March 31, 2029 (at least 30 days prior to expiration date). Any revisions to the PQDP, except for spelling corrections and non-substantive changes to punctuation or editorial items, must be submitted and approved by DOE PCP prior to implementation of the proposed changes.

This approval memorandum also serves as a reminder that the Order requires that for offsite transportation each Departmental element that uses a Type B or fissile package certified by DOE must register with the DOE HCO prior to first use of the package. Refer to the following URL for registration instructions: <https://rampac.energy.gov/home/package-certificationinformation/guidance/doe-guidance>.

If you have any questions, please contact me or DOE Docket Manager Lawrence Gelder at (803) 645-3490.
