This approval, for renewal, is based on independent review by the DOE Packaging Certification Program (PCP) of the *Argonne National Laboratory Quality Assurance Program Description for Type B and Fissile Material Packaging*, NWS-252, Revision 8, dated June 12, 2025.

This DOE QAP Approval satisfies DOE Order 460.1D, Hazardous Materials Packaging and Transportation Safety, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of DOE Approval Number 0014, Revision 2, is October 31, 2030. If you wish to renew, revise, or terminate approval of QAP Approval 0014, please request this action in writing. Any revision NWS-252, Rev. 8, except for spelling corrections and nonsubstantive changes to punctuation or editorial items, must be submitted and approved by the DOE PCP prior to implementation of the proposed changes.

This approval memorandum also serves as a reminder that the Order requires that for offsite transportation each Departmental element that uses a Type B or fissile package certified by DOE must register with the DOE Certifying Official prior to first use of the package.
