Issuance of Quality Assurance Program Approval 0015, Revision 3, for renewal

Attached is the Department of Energy (DOE) Quality Assurance Program (QAP) Approval, Approval Number 0017, Revision 3, for Isotek Systems, LLC (Isotek), in response to the email request from William Haver on January 3, 2025. This approval for renewal is based on independent review by the DOE Packaging Certification Program (PCP) of Isotek's *Quality Assurance Program Description for Using Type B and Fissile Radioactive Material Packages*, ISO-QAC-005, Revision 4 dated June 2018.

This DOE QAP Approval satisfies DOE Order 460.1D, *Hazardous Materials Packaging and Transportation Safety*, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of DOE Approval Number 0017, Revision 3, is January 31, 2030. If you wish to renew, revise, or terminate approval of the QAP Approval 0017, please request this action in writing. Any revisions to the Isotek QAP Description, ISO-QAC-005, Revision 4, except for spelling corrections and nonsubstantive changes to punctuation or editorial items, must be submitted and approved by the DOE PCP prior to implementation of the proposed changes.

This approval memorandum also serves as a reminder that the Order requires that for offsite transportation each Departmental element that uses a Type B or fissile package certified by DOE must register with the DOE HCO prior to first use of the package. Refer to the following URL for registration instructions: <https://rampac.energy.gov/home/package-certificationinformation/guidance/doe-guidance>.

If you have any questions, please contact me or DOE Docket Manager Lawrence Gelder at (803) 645-3490.
