SUBJECT: Renewal of Fluor Idaho, LLC Quality Assurance Program Plan

Attached is Department of Energy (DOE) Quality Assurance Program (QAP) Approval Number 0029, Revision 1, for Fluor Idaho, LLC (Fluor), in response to your memorandum to Dr. James M. Shuler of my staff, dated March 30, 2021, for renewal. This approval is based on independent review by the DOE Packaging Certification Program (PCP) of *ICP Type B and Fissile Radioactive Material Packaging Quality Assurance Program Plan (QAPP), PLN-5042, Revision 1, February 24, 2016* (effective date April 20, 2016). There were no changes to the QAPP since DOE QAP Approval 0029 Revision 0 was issued May 12, 2016.

This DOE QAP Approval satisfies DOE Order 460.1D, *Hazardous Materials Packaging and Transportation Safety*, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of DOE QAP Approval Number 0029, Revision 1, is April 30, 2026. If you wish to renew, revise, or terminate approval of the QAP Approval 0029, please request this action in writing. Any revisions to Fluor's QAPP, except for spelling corrections and non-substantive changes to punctuation or editorial items, must be submitted and approved by DOE PCP prior to implementation of the proposed changes.

This approval memorandum also serves as a reminder that the Order requires that for offsite transportation each Departmental element that uses a Type B or fissile package certified by DOE must register with the Headquarters Certifying Official prior to first use of the package. Refer to the following URL for registration instructions: <https://rampac.energy.gov/home/package-certification-information/guidance/doe-guidance>.

If you have any questions, please contact me or Dr. Shuler at (301) 903-5513.
