Attached is the Department of Energy (DOE) Quality Assurance Program (QAP) Approval, Approval Number 0040, Revision 0, for Idaho Environmental Coalition, LLC (IEC), in response to your memorandum to Dr. James Shuler of my staff dated November 22, 2021. This approval is based on IEC performing Type B and fissile material packaging and transportation related activities in compliance with the previous QAP approval (Approval 0029, Rev. 1) issued to Fluor Idaho, LLC for *ICP Type B and Fissile Radioactive Material Packaging Quality Assurance Program Plan (QAPP), PLN-5042, Rev 1, February 24, 2016* (effective date April 20, 2016).

This DOE QAP Approval satisfies DOE Order 460.1D, *Hazardous Materials Packaging and Transportation Safety*, and therefore complies with the provisions in 49 CFR 173.7(d) for DOE to maintain packaging standards equivalent to those specified in 10 CFR Part 71.

The expiration date of DOE Approval Number 0040, Revision 0 is November 30, 2026. If you wish to renew, revise, or terminate approval of QAP Approval 0040, please request this action in writing. Any revisions to PLN-5042, except for spelling corrections and non-substantive changes to punctuation or editorial items, shall be submitted and approved by DOE PCP prior to implementation of the proposed changes.

This approval memorandum also serves as a reminder that the Order requires that for offsite transportation each Departmental element that uses a Type B or fissile package certified by DOE must register with the DOE HCO prior to first use of the package. Refer to the following URL for registration instructions: <https://rampac.energy.gov/home/package-certificationinformation/guidance/doe-guidance>.
