Washington, DC, 20585  
USA

Dear Dr. James M. Shuler,

As your August 31, 2017 letter requested, Department of Energy has been registered as a user of IAEA Certificate of Competent Authority USA/0336/S-96 for the Eckert & Ziegler Isotope Products (EZIP) Model Nos. XFB-3 and XFB-4. The sources described in the attached certificate have demonstrated their ability to meet the regulatory requirements for special form radioactive material as prescribed in the regulations of the United States of America and the International Atomic Energy Agency.

A copy of the certificate is enclosed. All future revisions of the certificate will be forwarded to Department of Energy at James.Shuler@em.doe.gov.

Sincerely,

A handwritten signature in blue ink, appearing to read "Richard W. Boyle".

Richard W. Boyle, Chief  
Radioactive Materials Branch  
Office of Engineering and Research
